MEMORANDUM FOR 

Subject: Publications Review Functions

1. In order to eliminate undesirable duplication of effort in the production of intelligence, particularly in regard to publications, it is requested that the Intelligence Advisory Committee approve the recommendation previously made by the Joint Intelligence Committee that the Central Intelligence Agency assume the functions of the Publications Review Subcommittee.

2. In order that these functions may be retained on an interdepartmental basis, it is further recommended that the present composition of the Publications Review Subcommittee be retained with the addition of a Central Intelligence Agency member to act as chairman.
